Presentation

Working as fullstack lead developer at **Weborama**, currently on a front-end project using VueJS.
Fulltime since 8 years, I used lot of different langages and frameworks, making me polyvalent, accustomed to learn quickly. French, speaking fluent english, I worked in internationnal environnements, and with various project management methods, mostly in agile.

Skills

Web	Javascript,VueJS , ReactJS, CSS, modern JS dev tools (webpack, gulp, etc)
Backend	GoLang, Python (2.7 et 3.5), NodeJS, (Java, C# & PHP also, but at a lower skill level)
SGBD	MySQL, PostresQL, MongoDB
Project Management	Scrum & agile.

Experiences - CDI

11/2015 – Présent	Fullstack software engineer, Weborama Lead developer in charge of a team for the redesign and maintenance of a VueJS application. Part of various projects inside the R&D team, I refactored a key app frontend in VueJS and worked and maintained python scripts on cloud servers. Javascript (VueJS), Python, Perl
01/2015 – 11/2015	Consulting, Aubay / PACIFICA Working for the OPEN team, I developed internal tools wich interacted with the Pacifica network, partners, and mainframe data. Java, JEE, Struts, SweetDev, Spring MVC, Maven, Javascript
01/2014 – 12/2014	Consulting, Aubay / COFELY INEO SYSTRANS Developed some features (Ponctuality and reliability statistics) for the Central software responsible for bus traffic management, some refactor and bug smashing. JBoss, Oracle, Java
01/2013 – 01/2014	Consulting, Aubay / BNP Paribas Various refactor and feature addition on a internal application. Java, JEE, Struts, SweetDev, Spring MVC, Maven, Javascript
11/2011 – 01/2013	Consulting, Aubay / ECOMETERING – GROUPE GDF-SUEZ Added various features on a frontend B2B application for energy management and remote reading of gas meters. PHP 5, Javascript, CSS, Postgresql, Chartist, Symfony2

Personnal projects

Video Game	Currently working on a multiplayer strategy game, playable on browser here on my github. Golang 1.10, VueJS, ZeroMQ
Static websites	Some statics websites for friends, mostly serverless VueJS.
Other	Various project, either to train myself on new languages, or to explore some ideas (procedural generation in Unity, Machine learning in Python, etc.)

Education

2005 – 2010	(in'Tech INFO groupe ESIEA) filière « Software Engineer » Technologue
2005	Baccalauréat S at lycée Ste Geneviève à Meaux (77)
